Products and Services Tailored to Your Industry

With its impressive customer base, consisting of people and organizations from the many industries it serves, and its myriad technological resources, GFI Solutions is in a privileged position to develop e-business opportunities which link SMBs, medium- and large-sized businesses, municipalities, financial institutions, and government agencies. Our company provides solutions which are perfectly tailored to today's multiple business realities.

A Past Which Guarantees the Future

GFI Solutions is actively pursuing a strategic growth strategy through targeted acquisitions in vertical markets and on promising ground. This strategy has enabled the company to complete the shift from being a services provider to being a products and services provider, in addition to expanding its client base internationally, conquering new markets, and successfully establishing a key combination of experts and specialized products which make it possible for the company to reach an ever-growing number of clients. This is how, in just five years, GFI Solutions has increased its annualized revenues and employee base fivefold. This is also why GFI Solutions ranks fifth out of the 25 leading software companies in Canada (Branham300 2011 Edition).

An Ongoing Promise
